

WYRDCASTER

Wyrdcaster
Level

The diagram shows the calculation of Effective Caster Level for a Spellcasting Class using Arcane Synergy. It includes the following components:

- Wyrdcaster Level - 1 = Spellcasting Levels**: A formula to determine the base Spellcasting Levels from the Wyrdcaster Level.
- SPELLCASTING CLASS**: A table with three rows and two columns. The first column is labeled "Уровень" (Level) and the second column is labeled "Bonus". The first row is highlighted in blue.
- Effective Caster Level**: The final result of the calculation, shown as a large number in a box.
- ARCANE SYNERGY**: A section with a downward arrow pointing to the "Spellcasting Class Level" column of the table.
- Уровень 2**: The level of the Arcane Synergy effect, shown in a blue box.
- For calculating level-based effects:** A note indicating the purpose of the Arcane Synergy effect.
- Spellcasting Class Level**: The level of the Spellcasting Class, shown in a blue box.
- Wyrdcaster Level**: The level of the Wyrdcaster, shown in a blue box.
- +**: A plus sign indicating the addition of the Arcane Synergy effect to the Spellcasting Class Level.

WYRD TECHNIQUES

WYRD TECHNIQUE

- ☐ **Augment Duration**
Extend the duration of a spell, without increase in spell level or casting time.
- ☐ **Augment Precision**
Reroll a spell's attack roll.
- ☐ **Ignore Environment**
Always succeed at concentration checks.
- ☐ **Increase Caster Level**
Increase caster level for the next spell by up to half your Wyrddcaster level.
- ☐ **Speed Casting**
Cast one spell using a metamagic feat, without increasing its casting time.

DRAWBACK

Concentration check to keep the spell active:
DC = 20 + spell level + augmented spell level

For a number of rounds equal to the spell level, reduce AC by the spell level.

For a number of rounds equal to the spell level, provoke attacks of opportunity when casting any spell.

For a number of rounds equal to the spell level, provoke attacks of opportunity when casting any spell.

For a number of rounds equal to the spell level, all spells take additional time as if cast with the metamagic feat.

- Уровень ☐ **Drain Arcane Reserve**
4 Drain points from your Arcane Health to take your hit points back to zero.

ARCANE HEALTH

$$\text{Уровень} \quad \text{Arcane} \quad = \quad \text{Spell} \quad \times \quad \text{Wyldcaster} \\ 3 \quad \text{Health} \quad \quad \text{Level} \quad \quad \text{Level} \\ \text{Points}$$

Sacrifice a spell slot to gain temporary hit points. These points can only be used to absorb spell damage. They disappear when you rest or fall below 0 hit points.

Arcane Health Pool

ARCANE LUCK

Уровень Insight = Spell
6 Bonus Level

Sacrifice a spell slot to gain an insight bonus to one saving throw or skill check.
May only be used once per round.

- Уровень
9 Apply your Arcane Luck ability after the roll has been made.
