The diagram illustrates the calculation of the final value (Wartość) based on the base value (Bazowa Wartość), premium (Premia), and penalty (Kary). It consists of two horizontal bars representing the calculation process.

Top Bar (Base Value): Labeled "Bazowa Wartość". It is divided into four segments, each labeled "Stat" (State).

Bottom Bar (Final Value Calculation): Labeled "Wartość". It is divided into three segments: "Premia" (Premium), "Kary" (Penalty), and "Wartość" (Value). The "Premia" segment is marked with a "+" sign, and the "Kary" segment is marked with a "-" sign. The final result is shown as a box labeled "Wartość" followed by an equals sign (=).

Diagram illustrating the calculation of the net value of a contract:

- Premia** (Premium) is added to the **Bazowa Wartość** (Basic Value).
- The **Stat** (Status) is **Wartość** (Value).
- The **Wartość** (Value) is calculated as **Premia** (Premium) minus **Kary** (Penalties).
- The final result is **Wartość** (Value).

Diagram illustrating the calculation of the net value of a contract:

- Top Row:** Premia (Premium) and Bazowa Wartość (Basic Value).
- Bottom Row:** Wartość (Value) calculated as Premia + Kary (Penalties) - Stat (Statutory).
