The figure displays three dot plots representing the distribution of CARGAS (loads) for three different scenarios. Each plot has a horizontal axis for CARGAS (0 to 10) and a vertical axis for frequency (0 to 10).

- Scenario 1 (Top):** The distribution is unimodal and centered at 4. The frequency at 4 is 10.
- Scenario 2 (Middle):** The distribution is bimodal. The frequency at 4 is 10, and the frequency at 8 is 5.
- Scenario 3 (Bottom):** The distribution is bimodal. The frequency at 4 is 10, the frequency at 8 is 5, and the frequency at 10 is 1.
